

The serious Democrats for a serious Future speak for all people who have ever professed to be either Democrats or Democratic

Serious Democrats.

For a Serious Future.

Do you love your environment?
Your PLANET? Your life?

Are you aware
that 50% of
people who vote,
vote wrong?

Is somebody that you know
a FILTHY REPUBLICAN?

Did you know that the
republican conspiracy
has brainwashed over
ten MILLION American
minds?

Democrat, now.
Democrat, forever.

Serious Democrats for a Serious Future is not currently a registered organization with the United States "government", as the events which led to the necessity of its creation have also led to a corrupt political system, the bureaucracy of whom we do not feel morally sound engaging.

We are a group of left-brained thinkers and are concerned about a number of important issues. We have a list of goals that we would like to see accomplished by 2012, which means we need to mobilize fast, and get our own people into office!

Here's a brief summary of our goals.

- We want to see an increase in embryonic stem cell research.
- We support the right of a mother to choose to abort her fetus, even if she cannot afford to do so.
- We demand that the deficit be cut in half.
- We would like to reduce the damage that the Patriot Act has done to our Civil Liberties.
- We would like to see the States legalize Gay Marriage.
- We want to support Affirmative Action and other programs that give minorities a fair chance in the scholastic and work places.
- We want to cannibalize 500 republican officials
- We would like to see higher transparency in corporate accounting.
- We would like to see more use of dipolmatic persuasion in international relations.

- We need to reauthorize the assault weapons ban and close the gun show loophole.
- We need to support Taiwan and commit to the "One China" policy.
- We need to safeguard nuclear material more stringently.
- We need to establish a way for undocumented aliens to earn citizenship.

Our complete list of our twenty three goals can be found online.

There are many problems facing our nation in the coming years, and the Serious Democrats fully support the coming Democrat administration. This future will be much Darker though, if we are not able to recruit people to help us spread the word.

If you are interested in joining this organization, email founder Peter Grey at peter_grey55@hotmail.com. We are attempting to spread to over fifty college campuses this year, so make copies of this pamphlet and send it to friends at nearby universities.

Serious Democrats for a Serious Future is a very important organization, it's a good idea to join it.

-Peter Grey, founder.
