

What's all this I hear about

The

Guard

Did you know...

That there is an international conspiracy against the color **green**?

Did you know...

That the global warming will cover the earth in a disgusting, blue liquid?

Did you know...

That 90% of people would be dead if it weren't for **green** things?

Are you SHOCKED and APPALLED at the gross violations of all things **green** by the Powers that Be?

Do you think that it's time to stand up and DO something about it?

Are you ready to FORESWEAR ALLEGIANCE to family, religion and state and join the people who are actually SERIOUS about the **GREEN** party?

The **Green** Guard is a dynamic group of young green-thumbed and green-brained persons seeking to change the world!

We've watched the news, we've seen the atrocities that humanity has inflicted on our beautiful planet, and we are willing to rise up and do something about it.

Grab your swords! Grab your ~~guns~~! It's time to...

PROTECT THE **GREEN**!

Did you know...

GREEN Isn't only nature!

Photosynthesis HAS caused all plants to turn the holy colour, but there are many other things out there that demand violent protection! Here are some points of our extended agenda:

- Money is very important, in the sense of American Cash. Promote the American economy overseas, and destabilize credit/debit.
- We need to find a way to destroy global warming, but preserve **green**house gasses.
- Martians have contacted the party. We must sacrifice ownership of the planet soon to the **Green** Men.
- There are several colors of apple that require elimination. Start buying your worms today!

If you are interested in joining the **Green** Guard please contact me, our founder, Peter Grey, at peter_grey55@hotmail.com.

For **Green**,
Peter Grey
